

Proximex Announced as Gold Winner of *Government Security News* Annual Border Security Award

San Jose, Calif. (Business Wire) – March 29, 2013 – Proximex™, the global leader in physical security information management (PSIM) and integrated situational intelligence, has been identified as a Gold Winner in the “Best Physical Information Management Solution (PSIM)” category, in the *Government Security News* Annual Border Security Awards competition. Proximex won the award for its work with the Port of Long Beach, CA. Awards were formally announced and handed out at the Border Security Expo, which took place in Phoenix, AZ, on March 12-13, 2013.

“We are honored Proximex has been recognized by *Government Security News* as a leader in border security,” said Larry Lien, Vice President, Product Management at Proximex. “We work every day to protect complex assets and mitigate risks for our customers, and are thrilled to receive this award recognizing our Surveillint solution.”

This is the 9th consecutive award for Proximex and continues the recognition of Surveillint’s innovative approach and Proximex’s thought leadership in the PSIM industry. The winners were selected by a panel of judges led by Chuck Brooks, who earned an MA in International Relations from the University of Chicago, was an Adjunct Professor at Johns Hopkins University, was the first Director of Legislative Affairs for the Science and Technology Directorate of the Department of Homeland Security and was a defense and foreign policy advisor to the late Senator Arlen Specter.

"We received an impressive collection of entries from large and small companies involved in border security," said Jacob Goodwin, Editor-in-Chief of *Government Security News*. "We're now pleased to unveil our list of honored companies and government agencies."

Surveillint by Proximex has delivered impressive results across the globe, helping customers reduce overall reporting time by up to 60 percent, alarm volume by up to 40 percent, individual response times by up to 90 percent and event and phone call ASA by up to 450 percent. The winning submission featured an installation at the Port of Long Beach, CA, the second busiest port in the U.S., which relied on Surveillint to integrate new and legacy systems, mitigate risk and enforce compliance by creating overall domain awareness.

About Proximex

Based in San Jose, Calif., Proximex is the global leader in physical security information management (PSIM) and integrated situational intelligence. Global customers operating in a variety of mission critical environments applaud Proximex solutions for delivering the fastest set up and deployment, the highest in scalability, availability and failover capabilities, and the most robust integrations in the industry. Proximex solutions join and correlate information from disparate security systems into one centralized environment,

thereby transforming massive amounts of data into useable, actionable information. Leveraging the company's IT heritage, Proximex solutions integrate physical and logical security systems with network and health monitoring technologies to catch multi-pronged attacks and relay important business-level information.
